

THE NEW YORK FLUTE CLUB

presents

Welcome to our 2025-2026 Season

Dear New York Flute Club members and friends,

Welcome to our 2025-2026 season! We are excited to bring you a full year of incredible performances by so many artists in our community. Along with our live recital series, we have our online series of virtual events, which will feature performances, interviews, and play-along opportunities for our members. Also, welcome back to our NYFC Flute Ensembles and our Jazz Flute Workshop for another brilliant season of creating musical moments together!

During this season, we will feature world-renowned artists, including Robert Langevin (New York Philharmonic, Juilliard School), Nestor Torres (Jazz flutist, Latin Grammy winner, recording artist), Jacqueline Cordova-Arrington (Assistant Professor of Flute at the University of Oregon, orchestral flutist), and, as our guest artist for the annual flute fair, Jennifer Grim (Associate Professor at Frost School of Music, University of Miami, and President of NFA).

We are also excited to continue our online programming to highlight a diverse array of genres, lectures, and performances, as well as provide an opportunity for our members to attend events from the comfort of their own homes. We will have programs featuring Tereasa Payne (world-music flutist, Broadway musician), Ragan Whiteside (soul-jazz artist), and John Ragusa (improvisational flutist). We will have several panel discussions, which will include appearances by Tara Helen O'Connor (Manhattan School of Music, Yale University), David Amram (flutist-composer), Joan Tower (Grammy-winning composer), Carol Wincenc (Juilliard School), and so many more! You can view a detailed listing of the season's events on our website, [here](#).

Thank you to everyone who has already renewed their membership for the 2025-2026 season! If you haven't had a chance yet, please join or renew today! You can either [renew your membership online](#) or you can print, complete, and [mail the membership form](#) with your payment.
